Palomar Hair Reduction Fee Schedule

Option 1. Paying for initial and follow-up treatments at the same time the service is rendered. Treatment is continued until the desired result is achieved. See individual treatment pricing listed below. Typically 6 treatments, spaced 4-6 weeks apart for the face/neck and 6-8 weeks apart (or as hair grows back) for the body, is recommended.

Option 2. Paying for a complete package in advance. This will provide 6 treatments at a discounted price. See package pricing listed below. Any additional treatments needed will be priced separately, or an additional package may be purchased.

Treatment Discounting: Patients who wish to have multiple areas treated will receive a 25% discount on the lesser priced services, of each additional area.

***Maintenance treatments will be priced at 20% less than the individual price listed above.**

There is no permanent hair removal, only permanent hair reduction. Since each client responds differently, there is no guarantee as to how many treatments will be required to achieve the desired results. **Darker skin types and/or lighter hair (blonde, red, white, silver and gray), fine hair, and hormonal hair will require more treatments and will not experience the same degree of reduction. Thus, refunds will not be awarded under any condition.**
